BROOKLYN WINGFIELD

WEB DESIGNER

PROFILE SUMMARY

Ambitious individual with a passion for learning, as well as, strong organizational and multitasking skills, and an aptitude for technology. Reliable worker with great communication, time management, and computer skills.
A driven and detail-oriented individual with a desire to use problem-solving skills to meet goals.
Proficient expertise in planning, designing, and implementing quality websites. Skilled in HTML, CSS, jQuery, PHP, and WordPress.
Proven ability to quickly understand requirements, create innovative solutions, and complete projects within tight deadlines.
Frequently praised as hard-working by my peers, I can be relied upon to help your company achieve its goals.

AWARDS

PROFESSIONAL EXPERIENCE

Internship Student
For Family Friend
January 2024 - April 2024

- As a previous Web Design Major at Chattanooga State Community College, one of my courses requested us to find an internship.
- I worked with a family friend to create a business site for him to sell his photography prints.
- The assignment required 90 hours over 15 weeks.

Time to Escape
Game Master - Chattanooga, Tennessee
August 2023 - Present

- Now, I'm aware working at an escape room doesn't hold much weight in the Web Design community.
- Escape rooms are one of my biggest passions. I always do one when I am out of town. I would love to hear about your escape room experiences, if you have any!
- I also created an escape room for a high school project!
- I have to satisfy customers, have attention to detail, time management, and communication skills.
- As well as, memory, patience, observation, and general awareness skills.
